Public Information Event

Friday, November 8, 2024
9:00 - 11:00 AM ET

2885 Holston Lane, Raleigh NC
Wake Tech Perry Health Sciences
Campus (Building A, Room 152)

In-person event

Project Overview

Join Brasfield & Gorrie for a public information session to learn more about the Wake Tech New Health Science Building and Parking Deck on the Perry Health Campus.

The project consists of constructing a three-story simulation hospital connected by two bridges to a neighboring building. It also includes a four-story precast parking deck, featuring new pedestrian pathways, a realigned road with a roundabout, a drop-off loop, and site walls. The event will provide an overview of the project and its required prequalification process.

Trade Contractor Information

Brasfield & Gorrie is committed to increasing our collaboration with small and diverse firms, and believe that every project is an opportunity to champion diversity and inclusion. [Click here](#) to learn more about our efforts and our supplier diversity program, EQUIP.

Completed prequalification documents are required to work on the Wake Tech New Science Building & Parking Deck Project. The prequalification documents will be available November 14th, 2024.
